# Photo and Image Editing Apps

- Lightroom
  - Creating catalogs for organizing photos
  - Sorting through large amounts of photos
  - Creating presets to use for images with similar lighting/exposure
- Photoshop
  - For more fine details: color correction, blemishes, stains
  - Can also be used to edit lighting/exposure
  - Add or remove items or people from photos
- Both can be used with jpeg images but will end with better results when used with RAW images
  - JPEG: a compressed image
  - RAW: uncompressed data from a digital camera
